

PRINCIPAL'S MESSAGE

It gives me pleasure to welcome you to Tehatta Government ITI. The institute is contributing to professional education and human resource development. Our campus has a beautiful landscape with an eco-friendly environment. Our Institute has well equipped labs, workshops and libraries to attain standards in academics and professional skills. The Institution has the freedom of having a vigorous, pleasant and wealthy environment in honing and toning the future of many students. Our mission is to mould the students into rational thinkers, skilled workers and spiritually upright individuals with ethical values. The main spotlight of the Institution is to empower students with technical knowledge, wisdom, and training both at the academic level of engineering as well as in highly competitive global market. The infrastructure amenities and the state-of-the-art equipment's pooled with talented and enthusiastic faculty member contribute to an enjoyable and an easy learning experience.

The metaverse is powered by technologies like virtual reality (VR), augmented reality (AR), artificial intelligence (AI), the Internet of Things (IoT), and blockchain. It allows people to interact with each other and, in some cases, with non-human avatars.

It's a virtual reality space where users can interact with a computer-generated environment and other users in real time.
